

LITTLE PERILLO

2025/2026

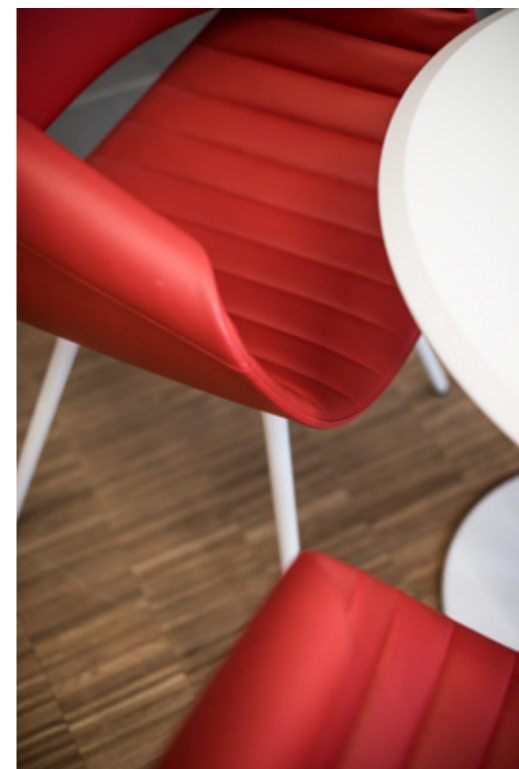

DAUPHIN

SMALLER STATURE NOT STATUS

The Design Icon

The Little Perillo with its curved form offers the same level of sophistication as the Perillo chair. Yet the range of applications is far more diverse. Just as with the Perillo lounge chair, the Little Perillo captivates with its sculptural effect. A precision cast plastic shell that comes in five colours gives it form and comfort. A carefully sprayed, three-dimensional plastic shell made of polypropylene with 15% glass fibre is currently available in 5 colours and gives the piece its characteristic form and comfort.

LITTLE PERILLO

From one piece, from one design, from another world. Little Perillo is a never-ending line and thanks to its shape, which follows the contours of the body, its cantilevered backrest is incredibly comfortable. A sculpture, created for the world's finest cafes and conversation groups. And even today a modern interior design classic.

Whether as a sleek 4-legged plastic stool in the cafeteria, as a swivel chair with seat cushion for meetings or as a counter stool: thanks to its seating comfort and diversity of variations, the Little Perillo cuts a striking and great figure in any location.

The fully upholstered version is more elegant and even more comfortable. The distinctive zipper on the back highlights the extraordinary shape of the Little Perillo in many colours. The leather or cloth upholstery turns any stool into a unique piece of true craftsmanship.

LITTLE PERILLO^{XS}

The curve of the Little Perillo^{XS} harks back to the larger models of the range. The narrower form secures it space at any table. As an ideal addition to the Little Perillo, it comes in the same materials and colours.

In alcoves and small rooms Little Perillo^{XS} really displays its full potential: For it is so graceful that it visually shapes and does not unnecessarily dominate the look of a room.

The Little Perillo^{XS} is presented with a pure plastic shell, a seat cushion, and a fully upholstered version. It is available with all Perillo frame versions and even as a counter version. Lighter, more comfortable, and perfect in combination with the Little Perillo.
