

PERILLO

DAUPHIN

THE TIMELESS DESIGN ICON

From one piece, from one design, from another world.
Perillo is a never-ending line and incredibly comfortable.
A sculpture, created for the world's finest lounges.
And even today a modern interiordesign icon.

Design: Martin Ballendat

PERILLO

With the Perillo you exemplify the modern art of sitting. A refined and extravagant lounge chair that welcomes you and your guests with a smile. The Perillo is not just made for the eye. It is also a comfortable armchair that uses the finest materials to create a premium seating experience.

PERILLO

The version with CPL film in white on the reverse creates an exciting look and emphasises the bold curves of the shape. The intricate seat cushion cover in fine Lavalina leather or textile is responsible for providing an exceptional degree of comfort. Perillo gains additional appeal when fully upholstered: the precise, straight quilting seams on the surface of the seat contrast against the curved shape and increase comfort. A pleasure, even after many years.

PE 0834

Multiple-bonded layers of wood form the visible structure for the curved structure. The thickness is chosen so that the shell remains flexible and offers a high level of seated comfort. A layer of the finest real-wood veneer in walnut or core walnut on the outer surfaces envelops the sculpture in its elegant coat.
